Your company has spent a lot of time, money, and effort getting your PeopleSoft system up and running. Like most companies, you've got additional needs (especially reporting) that you'd like to solve in a better way, but the alternatives don't sound appealing to you.

Perhaps it's simply too costly to run and manage the reports in your PeopleSoft system. Perhaps now that the system is live, you need to start distributing information to help your employees make better decisions. Maybe your users are having a difficult time finding and accessing reports. Or maybe you're feeling the significant pain, effort, and cost of meeting your organization's compliance requirements.

Grey Sparling Solutions, Inc. can help you with any or all of these problems in a manner that is quick, easy, and cost effective. Our secret is our use of the tools you already own and are deploying so that you don't have to purchase and deploy new technology, integrate products, or redevelop reports you're already using.

Real benefits you can leverage today

The Report Distribution, Management, and Control Extender is a product that allows you to realize significant benefits quickly and easily. Whether you are securing and managing reporting, distributing information to consumers, or certifying financial results, this solution:

- Compliance management

Infrastructure re-use – We minimize the footprint of our products and ensure that they leverage your existing application architecture.

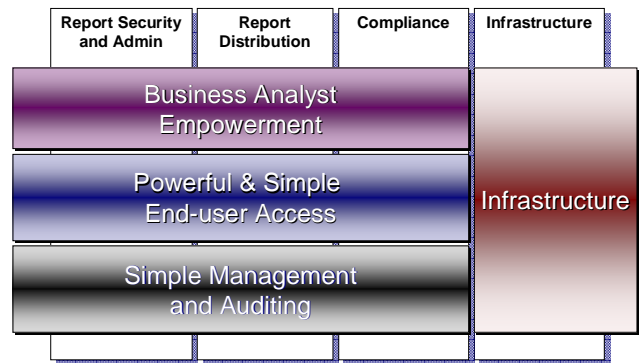

Built for your success

We deliver our products as extensions of your PeopleSoft application. Because your application already contains a robust infrastructure for managing processing, handling business logic, and providing access to content, our strategy is to make the most of this infrastructure. This means fewer moving parts and less risk for you.

We also provide powerful support and diagnostic tools to reduce deployment and support costs. Finally, all of our solutions are highly configurable to allow you to set desired behavior without having to touch our code.

Learn today why leading financial services institutions are using this solution to manage and distribute thousands of financial reports throughout their organizations.
